Learn-x Project

A learn-x project is a project-based learning method that allows you to learn a new technology or skill by working on a real-world project. This is a great way to learn because it allows you to apply what you are learning in a practical way. It can also be more engaging and motivating than traditional learning methods.

Different projects based on skill-set was prepared by the students and was showcased in the Month of April 2023.

UNSDGS consist of 17 Goals and all the project were covered under the same which derives to the point to balance ecological dimensions of sustainable development which will reduce the negative impact on the environment. The project also aims to equip the students with the latest technologies and tools that are relevant to their fields of study. The project also offers mentorship, guidance and career counselling to the students, helping them to achieve their goals and aspirations. The Learn-x project is a collaborative effort between the government, ITI Hinjlicut, Tata Strive and various industry partners who provide resources, expertise and opportunities to the students. The project has been running successfully for the past two years and has received positive feedback from the students, teachers and employers. The project has also helped to improve the employability and productivity of the students, as well as the reputation and quality of ITI Hinjlicut.

Dignitaries Visit

The visit of the dignitaries to our institution has been a source of inspiration and motivation for our trainees, who have been encouraged to dream big and pursue their goals with passion and dedication. The visit also provided an excellent opportunity to showcase the various initiatives and achievements of our institution, as well as to enhance our profile and reputation in the academic and professional community. Furthermore, the visit facilitated fruitful and constructive intellectual discussions between the dignitaries and our faculty, staff and students, which helped to create goodwill and foster collaboration. These visits offer valuable benefits for both our institution and the visiting dignitaries, as they enable mutual learning, exchange of ideas and best practices, and identification of potential areas of cooperation and partnership.

The Communications Team for preparing the media releases, invitations, brochures, and social media posts for each visit.

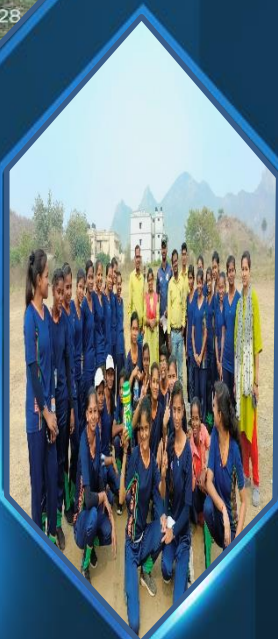

- The Academic Team for preparing the presentations, demonstrations, and tours for each visit.
- The Trainees for participating in the interactions, discussions, and feedback sessions with the dignitaries.
- The Faculty and Staff for providing support, guidance, and mentorship to the trainees.

We look forward to more opportunities to showcase our institution to the world and to celebrate our achievements together.

SPORTS ACTIVITY

The government ITI Hinjlicut is a premier institute that offers various courses in engineering, electronics, computer science, and other fields. The institute aims to equip its students with the knowledge and skills that are in demand in the industry and the society. However, the institute also recognizes that academic excellence is not enough to ensure the success and happiness of the students. Therefore, it also focuses on the physical and mental well-being of the students by conducting sports activities on a daily basis. The students can choose from a wide range of sports, such as cricket, football, badminton, volleyball, and more. These sports activities help the students to develop their physical fitness, agility, coordination, and endurance. They also help the students to learn important values, such as teamwork, discipline, respect, and sportsmanship. Moreover, they provide an opportunity for the students to relax, have fun, and socialize with their peers. The government ITI Hinjlicut believes that sports activities are essential for the **holistic development** of the students and prepares them for the challenges of the future.

CLUB ENERJI

This is a great initiative by Tata Strive to spread awareness and promote energy conservation among school students. Club Enerji has reached out to more than 530 schools nationwide and after understanding the growth and impact it has on students, Tata Strive has regularly implemented the activities such as Water Management, Celebrating Labour Day, Celebrating Yoga Day and much More.

Club Enerji aims to create a culture of energy conservation and environmental sustainability among the young generation. Through various activities, workshops, campaigns and competitions, Club Enerji educates students about the importance of saving energy and water, reducing carbon footprint, recycling waste and adopting green practices. Club Enerji also empowers students to become Energy Champions and influence their peers, families and communities to adopt a responsible attitude towards energy and environment. We are proud to share that Club Enerji has reached more than 21.5 million people and saved more than 29.8 million units of electricity since its inception in 2007. We are grateful for your support and cooperation in making this initiative a success.

G20 ACTIVITIES

भारत 2023 INDIA

As you may know, the G20 Summit is a forum for the leaders of the world's major economies to discuss global issues and coordinate policies. It is also an opportunity for us to showcase our achievements and contributions to the international community.

To celebrate this occasion, we organized various sports and cultural activities for our staff and students, such as cricket, yoga, Shramdan (cleanliness of ITI gardens), human chain, and quiz. These activities were designed to promote teamwork, wellness, social responsibility, and awareness of global affairs. I am pleased to report that all the participants were effectively indulged with these activities and displayed enthusiasm, creativity, and spirit.

Girls Students Exposure visit to ITI

A group of female students from the 10th grade visited Government Industrial Training Institute (ITI), in Hinjilicut , as part of an educational tour. The purpose of the visit was to learn more about the various technical courses and career opportunities offered by the institute. The students interacted with the faculty and staff of the ITI and observed the practical demonstrations of different skills and trades, such as welding, electronics, Fitter, Turner, COPA etc. They also received guidance and counseling on how to pursue technical education after completing their secondary education, and learned about the admission process, eligibility criteria, fees, and scholarships available at the ITI. The visit was a valuable and informative experience for the students, who expressed their interest and curiosity in exploring the technical field further.

Women's Day Celebration

We are delighted to share with you the highlights of the Women's Day celebration that took place at the Government ITI Hinjilicut, Girls on March 8th. The event was organized by the staff and students of the institute to honor the achievements and contributions of women in various fields.

The celebration included a sports activity where the students competed in different games such as badminton, Cricket. The sports activity was aimed at promoting physical fitness and teamwork among the students. The winners and runners-up were awarded with certificates and medals by the principal and the chief guest of the event. The chief guest was Mr. Jubli Charan Behera, Executive Officer, Hinjilicut, who delivered an inspiring speech on the importance of women's empowerment and education.

The prize distribution ceremony was followed by a cultural program where the students showcased their talents in singing, dancing, and reciting poems. The cultural program was a reflection of the diversity and creativity of the students. The program also included a skit on gender equality and a quiz on women's history.

The event was a great success and received positive feedback from the participants and the guests. We would like to thank everyone who supported and attended the event and made it a memorable occasion. We hope to continue celebrating Women's Day every year with more enthusiasm and joy

Placement Drive.

We are pleased to inform you that a placement drive was conducted in Govt ITI Hinjlicut on 20th May 2023. The drive was organized by NEEDS CONSULTANCY, a reputed firm that provides career guidance and job opportunities to ITI graduates.

The drive was attended by 120 candidates who had registered through the employment exchange portal. They were interviewed by a panel of experts from NEEDS CONSULTANCY, who assessed their skills, aptitude and personality. Out of the 120 candidates, 52 were selected for various roles in different sectors such as manufacturing, hospitality, retail and IT.

The selected candidates have successfully joined their respective jobs in their base locations on 17th July 2023.

They have received their offer letters, induction kits and uniforms from NEEDS CONSULTANCY. They will also undergo a two-week training program to enhance their soft skills and domain knowledge.

We congratulate the selected candidates and wish them all the best for their future endeavors. We also thank Govt ITI Hinjlicut for hosting the placement drive and providing us with the necessary facilities and support. We look forward to conduct more such drives in the future and create more employment opportunities for the ITI graduates.

Industrial visits

Industrial visits are an essential part of the curriculum for TI students, as they provide them with practical exposure and hands-on experience in various fields. ITI Hinjlicut has been proactive in organizing such visits for its students, and recently arranged a visit to ADC Shape Styles OPTCL (Hinjlicut), where the students learned about the design and operation of power transmission systems. The visit was informative, motivating and interactive, the students gained valuable insights into the industry standards and best practices. The visit also enhanced their skills and confidence, and pursue their career goals with enthusiasm and dedication.

MISSION **Shakti**

Govt ITI Hinjilicut Team has conducted an awareness campaign for girls enrollment in Govt ITI courses through the Mission Shakti Self Help Group (SHG) workers. The campaign aimed to inform and motivate the girls from rural and tribal areas to pursue skill development and vocational training at the Govt ITI Hinjilicut. The Mission Shakti SHG workers played a vital role in reaching out to the potential candidates and their families, and explaining the benefits and opportunities of joining the Govt ITI courses. Some of the courses offered by the Govt ITI Hinjilicut are Electrician, Fitter, Welder, Mechanic Motor Vehicle, COPA, Electronics Mechanic, General Painter, Industrial Painter, Turner. The courses are designed to equip the students with practical skills and industry-relevant knowledge that can help them find employment or start their own enterprises. The campaign was successful in generating interest and enthusiasm among the girls and their parents, and resulted in a significant increase in the number of applications for the Govt ITI courses.

Best out of the Waste

The students of the government ITI Hinjilicut have come up with an innovative project to create useful products from waste materials. The project, titled "Best out of the Waste", aims to promote environmental awareness and sustainability among the students and the community. The students have collected various kinds of waste materials, such as plastic bottles, cardboard boxes, old newspapers, discarded clothes, etc., and transformed them into creative and functional items, such as lamps, pen holders, bags, baskets, etc. The project also helps the students to develop their skills in design, engineering, and entrepreneurship. The project was initiated by the principal of the ITI, Mr. Ramesh Kumar, who encouraged the students to

participate in the project and showcase their talents. The project has received positive feedback from the visitors and the media, who appreciated the students' efforts and creativity. The project has also inspired other ITIs in the state to adopt similar initiatives and promote the concept of "Best out of the Waste".

SHRAMDAN ACTIVITY

As part of their social responsibility, the students of Govt ITI Hinjilicut participated in a shramdan activity on Saturday, where they cleaned the campus premises and planted saplings. The shramdan was organized by the institute's NSS unit, under the guidance of the principal and the staff. The students displayed enthusiasm and dedication in carrying out the cleanliness drive, which also aimed to create awareness about environmental protection and hygiene. The principal appreciated the students efforts and encouraged them to continue such noble initiatives in the future.

Career Counselling

TATA STRIVE Right Skills Bright Future
Skill Development Initiative of Tata Trusts

The block office of the government industrial training institute (ITI) in Hinjlicut is organizing a career counselling session for the students who are interested in pursuing vocational courses. The session provided information about the various courses offered by the ITI, the eligibility criteria, the admission process, the fee structure, and the career prospects. The session also helped the students to identify their aptitude, skills, and interests which will guide them to choose the most suitable course for them. The Career Counselling also dealt with Sudakhya Yojna program which is a great opportunity for women who want to build a rewarding career in various sector. It will help you gain valuable skills and experience that will make you stand out in the job market and to add-on the exemption of tuition fees and necessary facilities are also provided without any specialized fees.
